Purpose-built for business

The Advance Business Growth Centre is a brand new, purpose-built venue designed to meet the exceptional standards that the business community expects and demands.

With flexibility in mind, the centre can comfortably accommodate fully serviced conferences for up to 60 delegates. There is also a boardroom and other meeting rooms that can be used for training days, seminars and business meetings. The high specification levels mean that the latest Smart technology is available whilst our unique 'Welcome Room' sets a more informal tone with its lounge facilities for meetings, hot desking and wi-fi. You'll find that every room has natural daylight.

The 'high spec' facilities are backed up by the expertise of a friendly team who will ensure that all your requirements are met. We aim to create the ideal working environment to meet your needs.

Our meticulous attention to detail extends to our catering facilities; using local sources we can bring freshly made, hot and cold buffets and lunches directly to your room and offer unlimited Fairtrade tea, coffee and biscuits as part of our packages. In addition we offer private dining to round off your conference or meeting.

This is the place for business.

How to book

For more information or to make a booking please call 01889 561515 or e-mail enquiry@advancebgc.com
